

Alta Via Consulting, LLC

"A Better Use of Information"

Position Description

Consultant

Alta Via Consulting, LLC seeks to hire an individual with experience in advanced cost management, analytics and modeling tools for its position of Consultant.

The position requires that a qualified person hold at least a bachelor's degree or foreign equivalent in computer science, business, economics, finance, or accounting (or closely related area) and have one (1) or more years experience in a functional business area such as information technology, accounting/finance, manufacturing, logistics or a related field. In addition, we seek an individual with a strong understanding of project methodology and knowledge or coursework in Cost Management, preferably advanced cost models like GrenzPlanKostenrechnung (GPK), Resource Consumption Accounting (RCA), and Activity-Based Costing (ABC).

Key aspects of this role include, but not limited to, working with firm partners to review, edit, document, and publish new concepts and ideas in the areas of cost management and advanced costing software development, operating as a resource for system integration projects, performing business analysis activities, participating in business case development, evaluating requirements and providing recommendations for processes within ERP solutions, ensuring solutions are in line with user expectations and successfully integrate with other system aspects.
